

**Scenario 1 ‘Send a Parcel’.**

I wanted to send a parcel by courier to the USA and had never done this before [LtoL F1] So I decided to look on the internet to see what information I could find about courier companies and their rates [ICT D2]. I compared the rates and delivery times [N A4] and chose the best one. I bookmarked the page [ICT D4] so that I could find it later. I arranged the collection by telephone [Co F1, F2] and then I was able to track the progress of my parcel on the company website [ICT D2] Afterwards my friend wanted to send a parcel by courier in the same way, so I described to her what I had done, what worked well and what didn’t [Co B3] [LtoL G1,G2,G3] and I also emailed the details to her so that she could follow it step by step [ICT B1,B2 Co E6] I really felt that I had accomplished something new that day and had grown as a consequence[LtoL G4]
